Astrology

Aries : You may feel a bit anxious today, Aries, and it may be hard to settle down. You probably have many irons in the fire right now, and they're all starting to heat up at once. Unfortunately, other people may not be especially sensitive to your needs, so beware. It might be best to put up some sort of psychic shield to protect yourself from other people's moods.

Taurus : Your heart should feel quite generous today, Taurus. You're most likely feeling the need to keep everyone smiling. Spread your radiant sunshine everywhere - it will be appreciated on a day like this. You can't go wrong with compliments and positive encouragement. Focus on the good in all people and you will find that this attitude helps bring out the best in you.

Gemini : You may feel the urge to get up and go today, Gemini. Follow this instinct and get to work. You're anxious to get the ball rolling on certain projects. The key for you now is to make sure that the ones that are already started get done before you tackle the others. Don't let people stand in the way of your progress. Grab hold of the reins if you need to.

Cancer : You may find that there is some opposition from other people today, Cancer, especially concerning emotions. You may feel threatened in some way. An aggressive attitude could be making you feel inferior or unworthy of certain attention. Wanting peace, justice, and harmony doesn't make you wimpy or inferior, as some people may suggest. These qualities are your strengths, not your weaknesses.

Leo : You're terrific at following through with projects, Leo, but perhaps not so great at starting them. Today is the perfect time for you to prove this theory wrong. There's a great deal of force out there to help you boost your rocket off the launching pad. Take advantage of this energy and get to work on things you've been meaning to start but haven't gotten around to yet.

Virgo : Your self-esteem is apt to be quite high today, Virgo, and you may feel an extra bit of fire helping you throughout the day. Take the lead on projects that seem to be going nowhere. If you want the job done right, you may have to do it yourself. Don't be shy. This is the time to stand up and make use of your talent and skills.

Libra : There may be a bit of tension and conflict in your world today, Libra. Be prepared for mild contention that could turn into an all-out war if you aren't careful. Don't take things too personally. Think of these disputes as challenges that will only make you stronger when you overcome them. Don't get disgruntled or evasive. Running away won't do any good.

Scorpio : There may be tension in your heart today that could be difficult to shake, Scorpio. You might find it hard to relate to people or that others aren't hearing you very well. Keep in mind that you may have to translate your thoughts in order to get your message across. Keep an open mind as you deal with others on a one-to-one basis.

Sagittarius : Try not to be impatient today, Sagittarius. This could be one day in which you feel restless, and everything seems to take much longer than you'd like. Try your best to go with the flow. Don't get so wrapped up in making sure things happen by a certain time. Quality is more important than speed, and a peaceful mind is more efficient and productive than a stressed one.

Capricorn : To fight or not to fight may be the question of the day, Capricorn. Your sensitive, feminine side is likely to say one thing while your masculine, combative side says another. The key is to not act hastily in any situation. Make sure you proceed from a neutral platform instead of reacting from a point of aggression caused by someone else.

Aquarius : Be careful that you don't put your foot in your mouth today, Aquarius. You may have a tendency to jump the gun, so be conscious of how you use your energy. A false start is likely to get you disqualified. Orient yourself to your surroundings before you make any major upheaval. It's important to have a good, solid footing on the day before you proceed.

Pisces :- This could be a highly productive day for you if you approach it in the right way. You will find that you have an added burst of energy that could help you conquer just about any task you set your mind to, Pisces. You may feel more aggressive than usual, so use this to your advantage by delegating tasks and moving forward on projects that you'd like to see done.
